18 Years Of Archives Available

To reduce your costs of historical pharmaceutical data acquisition and searching, PPS Buyers Guides have gathered over 18 years of pricing, price change frequency, dosing, safety data, price adjustments, corporate terms and conditions of sale, and return policies etc. on many of the largest drug companies in Canada. We are now making it available on one DVD of searchable PDF's.

Each edition includes searchable PDF's of each company and any provincial or regional editions for that time period if applicable. To view the table of contents of each edition go to www.ppspharma.com/archives.
